

## FOR YOUTH AGES 14-18

- **FOSTER SELF-EXPLORATION**  
Discover strengths and interests and learn new skills through hands-on activities
- **ENHANCE CRITICAL THINKING SKILLS**  
Expand knowledge and learn how to identify, analyze and solve problems
- **GAIN WORK EXPERIENCE**  
Engage in summer internships related to specific areas of interest
- **EXPAND SOCIAL NETWORK**  
Make new friends and build professional network

## SPARK CURIOSITY WITH ESTEAM

ESTEAM opens the door for youth who experience autism and related disabilities to explore and discover the world around them through science, technology, engineering, art and math.

ESTEAM provides classroom instruction, hands-on activities and work experience that will teach youth how to explore different ideas and how to be creative and flexible problem-solvers.

In the summer months, youth will gain valuable work experience through internships related to areas of interest, and during the school year, youth will have opportunities to mentor younger students to help inspire and motivate future learners.

For more information about this exciting program, contact Annie Wahto at 541-246-5941 or [annie.wahto@arclane.org](mailto:annie.wahto@arclane.org).
