MAKING EMPLOYMENT A REALITY

The Job Development team helps turn dreams into reality by helping people seek, obtain and settle into meaningful employment.

We start with an individualized exploration of interests and potential opportunities, while preparing participants for the process of getting a job.

A personalized employment portfolio is then built, followed by interview preparation and practice.

Job developers help by creatively carving out new opportunities by working with local businesses to identify and realize new possibilities for participant employment.

For more information about this transformative program, contact Devin Duerst, The Arc Lane County EmployAbility director, at 541-343-5256 or devin.duerst@arclane.org.
