

FOR ADULTS AGES 18+

Referred by  
Personal Agent or  
Service Coordinator

- **Person-centered Approach** — Learn about job preferences, interests and support needs related to employment.
- **Skill Building** — Enhance soft skills and gain interview experience while discovering different job opportunities.
- **Job Development** — Get help finding meaningful employment with a referral from Vocational Rehabilitation.

REALIZE A BRIGHT FUTURE

Discovery is a limited-duration, comprehensive process that builds self-esteem and provides guidance to adults seeking meaningful career opportunities.

Participants realize their potential and discover their interests and strengths through individualized job exploration. Supportive job coaching allows for a tailored approach to help identify and plan steps to a chosen career path.

During the Discovery process, participants also learn about necessary job supports, such as transportation planning and interpersonal skill building, which help to boost confidence and increase job retention.
